HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongue to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

The Policy of Land Grants

The liberal and enlightened policy of granting lands for building railroads in the West was eloquently advocated by Senator Nye in a speech on the Northern Pacific Railroad bill. He is familiar with the entire history of our railroad system, since he has watched it from the beginning. He rode on the first locomotive ever constructed in America, which ran on the Hudson and Mohawk road, from Schenectady to Albany, as long ago as 1831. Contrasting the small beginning of that day with the great railroad system of the present, the Senator said:

To-day, under the policy adopted by our Government, we have railroads enough upon this continent to twice encircle the globe. We adopted a new principle—a principle resting upon the genius and inspirations of the American people—of going forth over this mighty continent in advance of population; and under that policy you behold a nation to-day proudly pre-eminent over all others, by the the simple donation of a part of the public domain of the country. Sir, to me there is a grandeur and magnificence and an indorsement of the policy of this country that it is too late now to gainsay. Its record is written not in steel altogether, but its lines are as deep as the foundations of our Government itself. I have only to draw attention to the magnitude of our success as an ample indorsement of the policy of our Government.

After graphically describing the great results accomplished for the West by the Illinois Central railroad, he gave the secret of the development of the country by railroads in the following statement:

It is a settled fact by figures, that when you raise corn at 75 cents a bushel 125 miles from market, and you have got to lay it down in that market by animal power, the value of your corn is exhausted when it reaches there. By this system of railroads, by this apparently generous, yet to, more than just, policy adopted by the Government, I can draw that corn 1600 miles for the same money. There are the facts. Who would go back to the principle of mule power or horse power as compared with the enlarged and never tiring zeal and persistency of that wonderful combination of mechanical power, the steam locomotive?

He repudiated the idea advanced by certain Senators that if the system of granting lands for building railroads were not abolished the people would rise in their majesty and stop it.

I repudiate, said he, on the part of an intelligent people any such doctrine. It is incorporated into their whole experience, and it stands a part of their nature now to give the public domain to these great works, and for what? To keep them from acquiring homes? No, sir, but to give them homes. Go, consult the crowded marts of your great cities; go to the more barren portion of our non-producing soil, and what do the people long for? Cheap and rapid transportation to a milder climate and more productive soil. That is what the people of this country demand, and what they expect, and what they will have. The danger of indignation lies in the other direction.

From the concluding portions of General Nye's speech we make the following eloquent and appropriate extracts:

I live upon the line of the Central Pacific railroad. This northern road can in no possible way affect me individually. I shall probably never see it when it is constructed. But I have seen the wonderful benefits of this policy in my own State, and I will not withhold it from others. A policy that was good for the Union and the Central is good for the Northern Pacific railroad. I have no selfish purpose to accomplish for the Central Pacific road. It has had its aid, and it must stand or fall upon its merits; but I will never consent to accept for them what I am not willing to grant to others.

Sir, where is it that this road proposes to go? Away up in that frosty region at the head of Lake Superior. It spans a country in which there are but very few inhabitants, which is not productive, but which is probably one of the greatest pasturing regions in this country. It strikes the Missouri river away up in its mountain passes, and goes over to the navigable waters of the Columbia and down the western declivity of the mountains. Sir, I glory in the anticipation of having that wild region made vocal by sturdy settlers. I glory in the anticipation that but a few more years shall roll around ere the whistle of the locomotive shall be heard from mountain to mountain and the valleys shall echo back the sound.

* * * * *

Sir, if there is one thing above another that commands the attention of him who loves his country best, it is the liberal policy that has been adopted in this country, which has taken population half a century ahead of where it would otherwise be. Every man away out on the plains testifies in favor of the policy and the wisdom of the Government that has appropriated some portion of its public lands to enable him to settle there.

Mr. President, I hope, and I have no doubt my hopes will be realized, that after such evidences of prosperity and glory arising from this policy we shall take no backward step now. As well return to the old craft that used to float wood down the Hudson in lieu of the majestic palaces that now glide on its bosom. This nation has gone out upon a broader and more commanding scale. Its shipping is attracting the attention of the world and its mighty progress in railroads challenges the admiration of the enlightened universe. Recede from it? Never!

MISCELLANEOUS ITEMS.

A New Hampshire paper mourns that Fast Day is getting to be more and more a bravest 4th of July.

By direction of acting Gov. Pound, the flags were placed at half mast on the Capitol of Wisconsin on the 15th ult., in memory of Abraham Lincoln.

Arkansas papers report the death of Lewis Ross, a prominent Cherokee, aged about 70 years. He was a brother of the chief, John Ross, and the last male member of the elder Ross family.

The Democratic leaders in Missouri are talking about calling a State Convention for the purpose of ascertaining the views of representative men in all parts of the State regarding the present condition of political affairs.

A Nashvillian last week conceived the idea that he could fly, and climbed a tree, waved his arms grandly, and struck out. Somehow the ground sprang up and hit him, and he crawled into the house convinced that flying was not his forte.

A lady in Michigan has recently recovered her reason after being insane twenty three years. The interval has been a blank, but she remembers vividly whatever occurred before it, and sadly puzzles her new friends by her stories of "what occurred a few weeks ago."

A Michigan man recently sold his wife and child for twenty-five cents, but the purchaser became weary of his burden in a short time and threw it off. The father of the woman was straightway in a quandary, and applied to a lawyer to know if the sale made was legal, and particularly, which of the two men was responsible for the support of the child.

A horrible intimation comes from Charlestown, Massachusetts. A lady who has suffered lately from an inflamed neck, has been told by her physician that it is caused by horrid insects called borers, inhabiting the Hindoo bark braid of her chignon. She has cast the chignon from her and has had her head shaved as smooth as a billiard ball, (pardon the comparison) fearing some of the vile insects had taken up their abode in her natural back hair.

We wouldn't believe the following of Boston if we hadn't read it in a Boston paper, and the Boston papers, as everybody knows, never get so excited as to exaggerate: "A widow, who has followed successively three husbands to the grave, entered a well known jewelry establishment in this city last Saturday, and producing the three silver plates which had first adorned the coffins of the dear departed, desired the proprietor to have them made over into a butter-knife!"

Jefferson Davis, in his letter denying the reports concerning Senator Cameron's remarks to him upon his withdrawal from the Senate, says: "Men had not then reached the degree of stultification which caused the withdrawal of States from the Union to be called 'rebellion;' and the only remark, so far as I know, made by any Senator, which had the least practical bearing, was the expression of Mr. Hale, of New Hampshire, that he expected us all soon to come back."

Southern papers are discussing the project which was in such favor just previous to the war, of manufacturing a large share of the cotton crop into yarns and coarse cloths, instead of shipping it to Europe in the bale. It is calculated that by doing so the staple would be increased in value by the addition of labor fully one hundred per cent. The average crop is now worth two hundred million dollars, and if half of it were spun, it would realize three hundred million dollars, besides employing thousands of operatives and inviting large emigration. It is claimed that yarns can be manufactured at the South of equal quality to those made abroad, and that they would sell readily in European markets. The consequence would be that the surplus spinners of the Old World would be obliged to come to the raw material instead of the raw material going to them as now, and, moreover, a very large saving in freight would be effected.

A great deal has been said of the Jury of Women in Wyoming, and it has been taken for granted that the ladies composing it were all of the woman suffrage persuasion, seeking position on the jury and obtaining it as a victory. The Laramie (Wyoming) *Sentinel* is kind enough to set this matter right. It says that there is not, to its knowledge, "a single woman in the city who is an advocate of, or a convert to, the doctrine popularly known as woman's rights"—that "not one of the women who served as jurors belongs to this class"—and (this is the most important of all) that "these ladies did not seek the position of jurors, and only accepted it with diffidence and hesitation, doubts and misgivings." We beg leave respectfully to commend these words to the consideration of those Eastern dames and damsels who have so gloried in this Laramie jury—to those who have no hesitation, no doubt, no misgiving, and no diffidence to speak of—to those who know that woman wants to vote—to those who are sure of it, have no doubt about it, are convinced of it, but who have not yet condescended to prove it—to those who would change the whole political character of society, without one doubt or misgiving of the assured blessedness of the result!

The Washington Territory Delegateship

[From the Walla Walla Union.]

At different times there have been those who charged a want of moral rectitude against Mr. Garfielde. Below we give a letter written by Mr. Hines to a gentlemen in this city, and think if Mr. Garfielde is good enough for such a man as Mr. Hines to vote for, he is certainly good enough to be entitled to the confidence and suffrage of most of the good people of the Territory.

VANCOUVER, April 25th, 1870.

DEAR — —: I write you a line touching the political canvass now commencing in this Territory, for Delegate in Congress. I feel it to be vital to the interests of the Territory that Garfielde be returned to Congress. He has done more in one year for us than has been done in six before. There are few men in Congress his peers, intellectually. As to character, he is better than nine tenths of his traducers, and I believe his political principles are as trustworthy as theirs. He could not be a Democrat now if he would, and I think he would not if he could. Judge Mix is a clever gentleman, but could do nothing for us in Congress. He is on the losing instead of the winning side.

I hope you will take all reasonable and proper pains to aid Garfielde, especially by removing, as far as you can, any impression that he is a *bad* man. I sincerely think that what Garfielde needs to make him more than an ordinary good man, is a field ample for his great powers; such a field Congress affords him. You are at liberty to use my name, and this letter, for his benefit.

I am, truly yours, H. K. HINES.

Cow County Logic

[illegible] in answer to [illegible] articles re specting the [illegible] a labored exposition of each part [illegible] and then [illegible] the method of the celebrated divine of the profound significance sch[illegible] preach from the tex[illegible] down to Jerich[illegible] brethren an illustra[illegible] location of chara[illegible] who went down [illegible] man This [illegible] the Albany paper thr[illegible] equally brilliant and [illegible] sions equally logical

First we are favored with an elucidation of that part of the resolution which declares that "the payment of the semi annual interest with other enormous expenses for which the people are taxed, makes a burden too intolerable to be borne" This language says the oracle at Albany "commits the Democratic party to the doctrine that the people of the United States are being ground to powder between the upper and nether millstones of semi annual interest and other enormous expenses incident to a Radical mal-administration" Sage conclusion How does the *Democrat* propose to get rid of the semi annual interest except by repudiating the principal? Will the Democratic party if it obtains power relieve the country from further payments of interest? The Albany organ intimates as much How can it do this except by refusing to pay interest longer and thus putting the doctrine of repudiation into practice at once? The *Democrat*, attempting to argue against repudiation, is by its own argument committed to the odious doctrine It says that the semi annual interest is "one of the enormous expenses of Radical mal-administration" Then of course it would cut off this expense at once Right in the outset of its argument that paper thus convicts itself of what it calls in another article "shameless robbery"

"The second part of the resolution,—to follow the fanciful division the *Democrat* has made —asserts that "the bonded debt was increased more than two-fold by the venal illegal and unjustifiable terms of its contraction, and there is neither justice nor wisdom in repeated payment of the principal by continued payment of the interest" And now what construction does the Albany paper place upon this clause? Hear its exposition "It means that because the bonded debt was contracted in part by a horde of public plunderers, * * * * the bonds should be paid just so soon as by the terms of their issuance they fall due, in order that the interest should be stopped forever" Is not that a wonderful conclusion from the premises laid down! *Because* the larger part of the debt was fraudulently contracted, *therefore* it should be paid as soon as possible! Such logic is overpowering If it had been the purpose of the Convention to declare that the debt should be paid off just as soon as possible, why couldn t it have been said so? The Albany paper, which seemed to occupy a dignified position for a time, has actually put itself in a position to be a laughing stock for everybody

The third part of the resolution we need not quote, because the interpretation the *Democrat* gives it is precisely the same as that given to the second part, viz "The bonded should be paid, not by buying up bonds at a premium, not by the indefinite postponement of the redemption of the bond until the principal has been many times paid by the continued payment of the interest but as speedily as it becomes due, according to the terms of the contract" Then why again could not the Convention have so declared? Why go around this vast circle of mean insinuation against the integrity of the debt, and of covert assault on the national credit *to say at last* that the debt ought to be promptly and fully paid? But the resolution says no such thing, Nor by any construction of which language is capable can it be made to mean anything of the kind Would intelligent, honest men go through so long a rigmarole as the eighth resolution to express the idea that the debt ought to be paid just as soon as possible? Were it not that an election is pending and it won t do for brethren to quarrel at such a time the repudiation press would light upon the *Democrat* and punish it unmercifully It has exposed itself to their blows, its position is the most illogical absurd and ridiculous that could be imagined and the other organs of the party while they do not want to take issue with it now despise the puerility of its arguments

Democracy and the Chinese

The Democratic press will not give up its pleasing belief that the Chinaman is to be made a voter The subject is one that is too fruitful of "first class" editorials to be abandoned in these times when there is a remarkable scarcity of political capital for the party Not to discuss now the Fifteenth Amendment (which everybody knows does not give *them* the right of suffrage) we wish here to call attention to a fact which is generally overlooked by writers on this question This fact is that these people would not vote if they could The Chinese as a contemporary observes are as proud a people as exist on the earth. They are also deeply inspired with reverence for the father land, and for all the institutions and customs of the Celestial Empire Place them in the [illegible] of the Sahara on the Steppes of Tartary in crowded London or in San Francisco and they at once exert themselves to [illegible] a Chinese colony never dreaming of th[illegible] assimilation which is natural to the Celtic Teutonic, and Anglo Saxon races For them our politics possess no shadow of interest [illegible] would they abandon their remembrances of and longings for their far off land, if they lived here a century Granted that such a race cannot form the most desirable element of society, it is mere folly to speak of their desiring to possess the suffrage, even as a possibility The Chinaman is a great worker a frugal liver a patient endurer, a peaceable member of the community But the idea that he will ever so far change his nature as to wish to mix in the stir and whirl of American politics, or that he will ever become animated by political ambition is as unreasonable as would be the idea that one of the wooden Indians used as signs for tobacconists could be taught to smoke the cigars whose effigies he holds, or to dance the cancan

Editorial Notes

W[illegible] Washington City on [illegible] April to return home with [illegible] vass Probably he has reached Jacksonville ere this [illegible] Our advices also state that Messrs [illegible] probably leave for home by the 18th May [illegible] to contract [illegible] then accord[illegible] that paper will elucidate [illegible]

All accounts agree that the rush of people to the Pacific coast this year is greater than at any former time since the golden period of twenty years ago To meet the increase of travel the Pacific railroads are now running two through trains a day Our own State will surely receive large accessions from this multitude and if those who come are pleased with the country (and all who have yet come are reported to be well pleased) the accounts sent back will bring us much larger numbers.

We have several times called attention to the outrageous conduct of G H Williams in robbing the west side of the river of a land grant previously secured to it at the dictation and for the emolument of that adventurer—Ben Holladay Thus the Corvallis *Mercury* For answer we say that we have several times called attention to the undeniable fact that it was the late Democratic Legislature that robbed the west side of a land grant previously secured to it, and that G H Williams had nothing whatever to do with the matter We leave it to the *Mercury* to say whether that bed rock Democratic Legislature did this at the dictation of Ben Holladay, or not and how large a "bribe" was paid

A new apportionment of Congressional districts will be an inevitable result of the census of the present year Were the present number of Representatives—241 to be retained, the older States would inevitably lose some members A bill has passed the House, however, providing for an increase of this number to 275 On this basis it is likely that all the New England States except Rhode Island will retain their present number of Representatives in the House New York will gain two New Jersey one Pennsylvania, one, Virginia, one, South Carolina one Georgia, one Indiana, one, Illinois, five, Michigan two Wisconsin two Minnesota, two Iowa two Missouri two, Kansas, two Maryland, one Alabama one Mississippi two Arkansas one Louisiana two Texas two and New Mexico, one The rest will remain as at present, except Kentucky which will lose one and Rhode Island which will also lose one The bill will undoubtedly become a law

The Natural Result.

[From the Marysville (Cal) Appeal]

The San Francisco dailies contain lengthy accounts of the sayings and doings of the thousands of "starving workingmen" in that city a perusal of which is calculated to destroy every particle of sympathy which these men would receive but for their course inconsistent as it is with their professions of suffering The whole affair smacks too strongly of the lazy shiftless demagogue It must be a singular condition of affairs, when men clamorous for work professedly to procure money to appease their hunger will strike for higher wages, hire halls in which to hold indignation meetings and more particularly when hundreds of channels for employment are open throughout the State, to those who have the ambition and desire to find them That there is much suffering and many deserving men in this motley throng there can be no doubt but who is responsible for their misfortunes? The answer is very simple It is the loud mouthed Democratic demagogues of that city who for years have deceived them, under the pretense that these same demagogues were the "friends of the workingman" Their friendship has never manifested itself in giving the laboring men wholesome advice in teaching them those principles of political economy upon the observance of which their well being depended nor of pointing out to them the errors into which they would too frequently fall, but the Democratic politicians from the highest to the lowest, have first acquired a knowledge of the ideas, desires and propensities of the most ruffianly of the lot—and these comprise the bulk of the San Francisco Democracy—and the one who could excel in urging them on in their own selected course whether it was right or wrong was rewarded with their undivided political support, To denounce capital and capitalists as their bitterest enemies to make them believe that the Chinaman was taking bread from the white man s mouths to encourage strikes in the face of certain defeat to the strikers and the utter ruin of important manufacturing interests and to make them believe that as workingmen they could dictate to an entire community, has been the constant policy of Democratic politicians in San Francisco for years [illegible] on their tools have become a power in that city and under the guidance of such leaders what wonder is it that they have at last reached that point to which such shameful course [illegible] lead It is because they form a political power that they cling to San Francisco where they are flattered their passions and prejudices are inflamed, and they live in a state of continual excitement each with a constantly increasing opinion of his own personal importance The Democratic officials have now taught them that the city is bound to provide them with work, and instead of seeking it elsewhere they luxuriate in mass meetings with buncombe speeches and altogether would be very happy if these proceedings would put food in their lusty stomachs The San Francisco Democracy has now an ulcer of its own breeding and it remains to be seen how it will be cured

Bidding for the Colored Vote

[From the Sacramento Record]

We prophesied long ago that the Democracy as soon as they found that the Fifteenth Amendment was a fixed fact would turn around and make a bid for the negro vote The *Examiner* led off in this change of front the *Reporter* followed suit and now the prominent Democrats throughout the State are using every effort to ingratiate themselves with their colored brethren The latest illustration of this new dodge occurred at Los Angeles [illegible] the occasion of the celebration by the colored folks of the ratification of the Fifteenth Amendment They gave a ball and banquet and the Democracy rallied in force to assist at the entertainment A colored orator delivered an address and was followed by Col. E J C Kewen who made a speech which was well received Col Kewen a year or two ago was one of the most violent of secessionists and at a Democratic State Convention held in San Francisco at that time expressed himself in the strongest possible language against the admission to citizenship of the very class whose votes he is now endeavoring to secure But the most amusing part of the story remains to be told The Los Angeles Democracy acquitted itself at the ball in the [illegible] After this we presume we shall hear no more about "would you like your daughter to marry a nigger" The barriers of caste and color have been broken down by the chivalrous Southerners represented by Colonel Kewen and the slender waists of the once despised race have been encircled by the arms of the proud Caucasians If the colored people retain any memory of the past however they will take these manifestations of friendship for what they are worth They will not fail to remember that the men who now approach them with extended hand strove to the last against their admission to citizenship and that up to the very eve of ratification the organs of the Democracy continued to denounce ridicule and insult them Let them remember the past in forming their political programme for the future

OREGON INDIANS —In the Senate on the 21st of April Mr Corbett submitted the following resolution which was considered by unanimous consent and agreed to

Resolved, That the Secretary of the Interior inform the Senate as to the condition of the Indians in southeastern Oregon their location, and what provision if any is necessary to be made for their establishment and support

Another Victory

[illegible] Mr Grover and Mr [illegible] addressed the people of Washington county at Hillsboro [illegible] day A gentleman who was present [illegible] all the speeches informs us that while Mr Grover made as able an effort as any heretofore made by him in the canvass, he was never more effectively answered and charged home upon [illegible] Woods [illegible] Mr Grover had but little to say about the financial problem which was the vital issue and which despite his duplicity is the vital issue among the people repudiation He evidently concurring that matter thought that the less said would be easiest mended Gov Woods however drove home to him so effectually the charge of repudiation that [illegible] Mr Grover's party [illegible] upon the ground freely acknowledged their champion beaten in the argument and admitted that the effect of the two speeches would be to considerably increase the Republican majority for which Washington county was already sure It is claimed by the Republicans after the speaking was concluded that the contest was a complete and overwhelming victory and that it would add nearly or quite fifty votes to the Republican poll of Washington county And we do not doubt it

Speaking To-night

Gen Palmer Mr Grover and Gov Woods will speak at the Court House at 8 o'clock this evening on the political issues involved in this campaign From all the accounts we hear from the canvass in Eastern Oregon between these gentlemen the speeches to-night will be not only interesting but important in their bearing upon the approaching election The issues involved are certainly among the most momentous ever presented to the people of Oregon They involve not only the fair fame but the material interests of our young but promising State Shall the verdict be next June that our people are in favor of repudiation national and State dishonor, and reckless of our own development through the means of internal improvements? Or shall it be given the other way? Attend voters to-night and let the argument decide your course

INTERNATIONAL COINAGE —Congressman Kelley on behalf of the House Committee on Coinage, Weights and Measures reported a bill to promote the establishment of a metrical system of international coinage by enacting "that the gold hereafter coined by the United States shall contain for each dollar of denominational value one and one-half *grammes* of pure gold, and shall weigh for each dollar one and two thirds *grammes* the proportion of alloy to the entire weight being thus kept as one to ten The bill also provides that such coins shall have stamped upon them in addition to other devices, their weight in *grammes* and the inscription, 'nine tenths fine.'"

Mr Kelley called attention to the fact that the bill proposed a reduction from the existing value of our standard gold of less than one-third of one per cent, and consequently requiring no recoinage He also stated that the coinage of a large number of countries representing a population of upward of two hundred millions was already very nearly metrical specifying the countries and the degrees of divergence in each case from the metric standard He also read extracts from several late pamphlets published by distinguished writers in Germany and France warmly commending the system which he advocated

The bill as reported is in accordance with resolutions and memorials from leading scientific bodies in the United States which have from time to time been referred to his committee

At the conclusion of his remarks he moved to recommit the bill to the Committee on Coinage which was accordingly done

THE [illegible]

NOT YET ARRIVED At the hour of going to press last night the [illegible] had not arrived

The Daily Oregonian.

TUESDAY MORNING, MAY 10, 1870.

CITY.

SAILS MENTION.—The *Moses Taylor* arrived at San Francisco in 50 hours from this port. Favorable winds for her and the *California* back.

Nelson D. Bush, a colored gentleman, addressed his fellow-citizens at the Colored Men's "Masonic Hall" last night. He was attentively listened to by a large audience. He will speak at Salem on Wednesday evening.

Study was resumed at the Portland Academy and Female Seminary yesterday.

Applications at the Labor Exchange continue to increase. Nine applied for work yesterday. Bricklayers, choppers, clerks, cooks, farm hands, and fishermen.

The first annual picnic of the Independent German School Society of this city, will be held at the East Portland Park on the 22d inst. Exercises will commence at 10 A. M. Tickets $1. See notice elsewhere.

A lecture on the subject of Spiritualism was delivered at Harmony Hall Sunday night by Mr. Cleveland. At the close a collection was taken up for the benefit of Mr. Underwood, who has been invited by the Spiritualists of Oregon to come and lecture throughout the State.

On next Saturday, all the Sabbath schools of this city will have a picnic and excursion. Mr. Holladay, who has generously volunteered to take the little folks up on the cars to the grounds, will also in the same manner cause to be brought down the various schools from Oregon City, so that they can unite with those of this city, and thus the scholars of both places can enjoy a grand reunion this day.

The Anniversary exercises of the Young Men's Christian Association held on Sunday evening at the Baptist Church, was quite interesting and drew a large gathering. The address, delivered by E. C. Anderson, D. D., is highly spoken of for appropriateness, instruction and thought.

Gen. Joel Palmer and Hon. L. F. Grover, opposing candidates for Governor, will address their fellow-citizens on the political issues of the day at the Court House this evening.

The *Senator* brought a fine lot of hoop-poles and a quantity of pig iron down the river yesterday.

A new pile driver is being built on the river bank below Carson & Porter's sash and blind factory.

If it was not for the deposits of carrion on the river bank below the O. S. N. Co's ship yard, that would be an excellent driving park.

The *Eagle* brought up the river a raft of saw logs to-day for one of the city mills.

The Wallamet Iron Works have completed, for shipment to-day, a superb double circular saw-mill for Owen Noble. It is constructed upon a new principle, which is superior to ordinary mills.

Three weeks ago to-day there was a fire alarm in this city.

There is a gentleman in this city negotiating for a steam propeller and machinery for a vessel to be used in Gray's Harbor, in the lumber trade. This will be a good thing for that region.

The road to the White House is in good order, and things out there are cheerful. Mr. Bruch wishes the owner of the cow, advertised in another column, to come and take her away, as she is a trouble, giving more milk by a long way than [illegible] by him.

THE PACIFIC CABLE PROJECT.—

"I'll put a girdle 'round the Earth in forty minutes."
—Puck.

People all over the Pacific coast are becoming deeply interested in the project for a Pacific Cable to Japan and China. Two routes are talked of, and as the matter of distance must enter into this question, Portland, Oregon, is several hundred miles nearer a direct line than San Francisco; and [illegible] fully as promising at this time as [illegible] city of the Pacific coast, such an [illegible] making the Columbia river the starting point, in the course of circumstances, turn [illegible] by a little judicious management [illegible] of our Chamber of Commerce and Board of Trade, (when we get such institutions.) Cyrus W. Field is at the head of the project. The [illegible] the company proposes that [illegible] incorporate one possessing a capital of $10,000,000 in gold, the entire amount to be [illegible] and paid within one year from the organization of the company, under the act of [illegible], which shall have power to construct [illegible] either direct or by way of the Hawaiian Islands. Mr. Field proposes as a guaranty of [illegible] of the company, to deposit $100,000 [illegible] Secretary of the Treasury, to be returned on the completion of the cable. The company [illegible] to commence the manufacture of the [illegible] one year, and to have it completed [illegible] five years. The United States are to have [illegible] over all other nations or persons in transmitting [illegible], and the right to transmit annually, free of charge, messages on Government [illegible] amounting, in the aggregate, at the [illegible] rates, $500,000. Mr. Field shows, in a [illegible] accompanying his bill, that there are [illegible] marine cables in operation, making an aggregate of over 22,000 miles of length. [illegible] Government is considering a plan for [illegible] the postal system of telegraphs to all [illegible] Colonies, and by one continuous line of [illegible] miles in length, uniting these colonies with each other and their mother country. [illegible] will complete the telegraphic circuit of [illegible].

[illegible] REWARD SAVED.—We have found the [illegible] who set off that blast which all the city took [illegible] gun on Sunday afternoon. He [illegible] the reward, but was glad enough [illegible] get off with his life—not from us, under[illegible], but from the blast, which was purely accidental. [illegible] occurred thusly: He lives in the [illegible] the river—has some boys who [illegible], and these boys are obliged to keep their powder [illegible] out of his sight. On Sunday [illegible], who is a law-abiding citizen, by the [illegible] and a perfect gentleman—one who is sorry [illegible] puts so many to inconvenience—took a stroll through his fields. Resting in a shade, he lighted his pipe for a smoke, threw the match down and ignited the dry grass which burned nicely. Fire has some fascination about it, and our friend watched the progress of the blaze. By a little assistance, with another match, the flame spread to a brush heap or two and burned beautifully for an hour or more, until one final pile of brush was reached in which a can of powder was discovered, where it had been secreted by the boys, but too late for him to get it out. He [illegible] his back upon the scene, and made tracks off not daring to look behind. When about ten rods distant the explosion occurred. It almost shook the earth, and the report was distinctly heard five miles distant. We agreed to suppress the name of the party before hearing the story of that mysterious sound which stirred the city so lively on Sunday evening, and brought so many execrations upon the head of "somebody" who was innocently the cause of much mischief. We are satisfied that it was purely accidental, and a parallel case has never been known.

UNSAFE BRIDGE.—The bridge over a deep ravine on the Base line road, in the vicinity of Lone Fir Cemetery, is absolutely dangerous, and we shall not be astonished, some of these days, if it is not repaired or rebuilt, to hear of a terrible accident there. This is the bridge upon which the leg of Mr. McCalla was injured. At the time of the suit against the county for damages Mr. Ste[illegible], civil engineer, was employed to make a survey of the bridge. This survey is on record, and we have referred to the original notes, and find from them that the bridge is totally unfit for use. Three or four of the bents are without a foundation to rest upon. One of these is loose, and easily pushed either way. The stringers for the planking were put upon the caps "end to end," when the bridge was built, instead of lapping by each other, and out of these stringers two are just loosely held on the cap by their edges. One is entirely off. With this old bridge in such condition it frequently occurs that teams are driven over it on a trot—and when it comes down it will be with a crash. Mark that.

THE LUTHERAN CHURCH.—At the close of the dedication sermon at the new Lutheran Church, the sum of $1,500 was subscribed toward the [illegible] of the church indebtedness. The entire cost of the building was about $4,000, and this sum subscribed will contribute materially towards relieving the church of its present financial embarrassment. It is thought that in the course of the present week the entire debt can be cancelled by voluntary subscriptions. The dedication sermon was delivered by the Rev. Geo. B. Stelling, as was announced. A large congregation was present. Many, unable to be accommodated with seats, were compelled to go away, and we understand that several persons fainted and were compelled to be removed, on account of the oppressively warm weather. We had the pleasure of meeting Mr. Stelling yesterday, and learned from him that he will speak once more in the English language at the Lutheran church next Sunday evening, before his return East, at which time, Rev. Mr. Sprecher, a new [illegible], will be by him ordained.

NOT YET ARRIVED.—At the hour of going to press last night the *California* had not arrived.

DEGREES CONFERRED.—The following note from Prof. Marsh, of Forest Grove, was overlooked by us on Saturday: "There was an omission of one name in your mention of our conferring degrees. The degree of A. B., in course, was conferred upon A. A. Lindsley and F. L. Stott. The honorary degree of A. M. upon William Hall, Esq., Rev. Thomas Condon and Rev. P. S. Knight, that of D. D. upon Rev. E. C. Anderson. The degree of M. S., in course, upon Miss Brown, Miss Clarke and Miss Neal. If you will print a corrected statement, or supply the omission, you will much oblige.

S. H. MARSH."

GOOD TEMPLARS.—The following officers of Multnomah Lodge, No. 12, Independent Order of Good Templars, were installed on Saturday evening last: Jacob Stitzel, W. C. T.; Mary Barkwell, W. V. T.; W. H. Wood, W. S.; Letha M. Anderson, W. A. S.; John B. Garrison, W. F. S.; Mary Saunders, W. T.; Daniel Wilson, W. M.; Maggie Landreth, W. D. M.; J. E. Wood, W. I. G.; Silas Kelly, W. O. G.; Olive Gray, W. R. H. S.; Irene Quivey, W. L. H. S.; Rev. W. Roberts, W. Chap.; W. E. Thornton, P. W. C. T.

HAPPINESS.—We noticed an individual sailing down Front street yesterday who seemed to enjoy "hisself" and everything in particular. He was in a clear case of "bow-legs," short, tight-fitting pants, linen coat, while a very small woolen cap perched upon his head. The last we saw of him he was imitating "Grasshopper Jim" in a side-walk jig under a broiling sun, whistling "Love among the Roses." We envy such a specimen of unalloyed happiness.

HATCHING KITTENS.—A singular case has occurred in the upper part of the city, in which a hen that wanted to set, but was broken up, took to a nest of four kittens in the absence of mother Tabby. She was discovered by a little girl, and carried away, but would return to her pussies with a determination which seemed to convey the impression that she was intent upon finding something to cluck for.

CHANGE OF MOON.—A change of the moon—or something else—has caused a different state of things in the Police Court. Four arrests were made yesterday, and Recorder Anderson held his usual levee in the morning. Nothing particularly interesting. Cause, generally assault and battery, except in the matter of poor, fallen Mary Lee, who was tried for drunken and disorderly conduct.

U. S. DISTRICT COURT—DEADY J.—May 9th, 1870—J. H. Egan vs steamboat *Mary Bell;* libel for work and material; cause set for trial on Tuesday next.

Thomas Riley, a native of Ireland, admitted to citizenship.

U. S. Circuit Court will convene to-morrow morning.

FATAL ACCIDENT.—Mr. A. G. Walling received a dispatch last evening informing him that his brother Jesse D. Walling of Lincoln, Polk county, had been killed yesterday. The particulars of the accident appear in a press dispatch. Mr Walling will leave here to-day to visit the family in their distress.

FIRE.—A vacant house near Oswego lake, owned by John Doole, was destroyed by fire a few days ago. It is supposed that some persons who were fishing on the lake left fire in the house, where they had camped, and the burning was the result. Mr. Doole informs us that his loss is about from $500 to $1,000.

REPUBLICAN CLUB ROOM.—The Republican Central Committee of Multnomah county have selected the store room of Messrs. Harker Bros., on Front street, as a place of rendezvous and club room during the canvass. The room will be nicely fitted up and furnished, and will be duly opened to-morrow.

SOLD OUT.—Mr. Richardson returned last evening from Washington Territory, where he had been to dispose of considerable real and personal property belonging to Mr. Love, at Love's Mill, on the Columbia river above Vancouver.

THE RIVER.—Up to noon yesterday the river at this point had receded ten inches in 48 hours. Dispatches from Umatilla say the Columbia was again rising at that point. There was considerable current in the Wallamet yesterday.

"PLAYING ROOTS" ON THEM.—The New York *Tribune* seems to think that the Fenian scare is gotten up by the Canadian Government to consolidate the people of Canada, and direct their attention from annexation and kindred topics. It says:

> Not till the Adirondack woods go to Ottawa is it likely that Sir John Macdonald will actually have to encounter the Fenians. Yet this great man has roused the Canadians with a tocsin, as if the Fenians were advancing like another "Birnam wood to Dunsinane"—an army in emerald green like a moving forest, as it were, of uncut shillelahs.
>
> Now the Fenians are not the real trouble of Canada. The Protestants there, who are English, hate the Catholics, who are, after a kind, French, since the latter have been more than usually provoking in their sympathies with the Winnipeg Government but this is not all. Nova Scotia has strenuously condemned the Dominion Government, not for the first time. Confederation has been overwhelmingly voted down in Prince Edward's Island. New Foundland complains; New Brunswick is doubtful in respect to the same problem of Confederation. Columbia is not satisfied, and Winnipeg is the objective point of an expedition. The actual number of people of Canada who are satisfied with the existing condition we should like to know. Apparently two thirds of the Canadian Dominion are not. What, then, shall the Government of Sir John, Sir Peter, Sir Ebenezer do? Do something desperate, to be sure.
>
> What is better than a Fenian fright to scare up a feeling of nationality, and make loyal Canadians hug their Confederation? This plan has the advantage of overawing the Catholic faction, while it aids the Red river crusade, but it has drawbacks. Where are the Fenians? To this day the first glimpse of an Irish invader has not been seen. We challenge the Canadian Government to prove that invasion has been seriously intended by any sane—we might venture to say, even insane—body of men. We challenge Sirs Young and Macdonald to show that the necessity professed exists for the suspension of the habeas corpus act with respect to the Fenians. What, then, must the people of Canada say when it shall be demonstrated that their Government, without accomplishing anything, has made them ridiculous, not only among themselves, but even to the malicious Fenians. Sir John Macdonald may conceive that his countrymen need a stimulant; but they certainly do not need the stimulant of alarm without a cause or an object.

The Pottsville (Pa.) *Miners' Journal* says that a few days since, at the Colorado Colliery, the workmen struck an old gangway of a colliery worked many years ago by Stephen Girard, in which was found a three foot gang railway track upon which stood a coal wagon capable of carrying three tons of coal. Although this gangway was cut many years ago, in the early history of the region, the prop timbers, the ties, and wagon were in a perfect state of preservation, and, from all appearances, will last a century yet.

It has transpired that every person employed on the train of the New York Central Railroad, at the time of the recent accident at St. Johnsville, was sound asleep. The head of the fireman was taken off by the throttle, on which it was resting, and crushed to atoms as it fell. Luckily the train was made up of freight cars.

A father was winding his watch, when he said playfully to his little girl: "Let me wind your nose up." "No," said the child, "I don't want my nose wound up, for I don't want it to run all day."

"TIME TRIES ALL THINGS."—The transition from one season to another has a world of effect upon the styles of clothing people wear; but Time, which proves all things, has proved that Kohn & Fisch are ever ready, and up to the season with every grade of goods necessary to please the most fastidious. Please call and examine their latest importations.

The key that opens the door to fortune is "quick sales and small profits," and he who adopts this plan and sticks to it is bound to succeed. That accounts for B. L. Stone's prosperity.

An Old Fallacy Exploded.

Thirty or forty years ago, it was the fashion to administer powerful purgatives as "spring medicine." Terrific doses of salts and senna, calomel and jalap, or glauber salts were given to all the members of a family, whether sick or well, by way of preparing them for the warm weather in prospect. This pernicious custom is nearly obsolete, but there are some old Bourbons of private life, incapable alike of forgetting anything or learning anything, who obstinately cling to it still. Nothing could be so pernicious, more utterly unphilosophical, than such an onslaught on the vigor and elasticity of the system. In order to enable the physical structures to resist the enervating effects of spring damps and summer heats, it should be toned and reinforced, not relaxed and weakened. The best medicine agent for that purpose is Hostetter's Stomach Bitters. Its effect is to tone the stomach and liver, gently relieve the bowels and obstructions, brace the nerves, improve the quality of the blood, stimulate the appetite and cheer the spirits. In this improved condition the organization is incapable of resisting unhealthy influences, which would prostrate an enfeebled system. A vigorous digestion is absolutely essential to health, and there is no danger of the stomach faltering or failing in its important office if the genial vegetable elixir is taken regularly as a stomachic. None of the tonic tinctures or extracts will supply the place of the Bitters, for the simple reason that they operate as astringents only. In fact, in ordinary practice, five or six prescriptions would be required to produce separately the beneficial results, which are effected simultaneously, and harmoniously by this single specific.

REPUBLICAN PLATFORM.

The Union Republican party of Oregon, in Convention, makes this declaration of its principles and policy:

1st. Unfaltering devotion to the Union, first, last, and forever; and unwavering fidelity to the Constitution and its amendments, and to the laws of our National Legislature.

2d. We wholly approve the principles and policy of the administration of President Grant, as carrying into practical application the principles for which we have successfully striven. And we particularly commend these points in his Inaugural Address, wherein he declares—"let it be understood that no repudiator of one farthing of our public debt will be trusted in public places, and it will go far towards strengthening a credit which ought to be the best in the world," and "I would protect the law abiding citizen, whether of native or foreign birth, wherever his rights are prejudiced or the flag of our country floats;" and "I will have no policy to enforce against the will of the people."

3d. We have confidence that the Administration will wisely and firmly protect the interests and sustain the dignity of the Nation in respect to other nations, and especially with regard to our just claims against Great Britain.

4th. We denounce all forms of repudiation as a national crime,—and the national honor requires the payment of the public indebtedness in the uttermost good faith to all creditors at home or abroad, not only according to the letter, but the spirit of the laws under which it was contracted. And for this purpose, we favor a strict economy in the Administration of the National Government, and the application to such payment of all surplus revenue, from whatever sources derived, and that taxation should be equalized and reduced as rapidly as the national faith will permit.

5th. We make no distinction between citizens, whether of foreign or native birth; and that we sympathize now and ever with men of all nationalities striving for self government.

6th. That we are opposed to any change in our naturalization laws which shall admit to citizenship any foreigners not now entitled thereto under said laws.

7th. We favor a judicious system of railroad and river improvements in Oregon, in order to develop our resources and invite settlement of our unoccupied territory, and for this purpose insist that Congress should make us liberal grants of aid.

8th. We are in favor of a tariff for revenue, with such discriminations in favor of our domestic manufactures as will not diminish its efficiency for the purposes of revenue.

9th. We favor universal amnesty to the people of those States lately in rebellion, which have been restored to full relations to the Union.

10th. We are in favor of fostering the cause of education, and are opposed to any diversion of the common school funds of this State to any other purpose than the support of common schools.

11th. We recognize in the Union Republican party the measures and men who saved the Government from destruction, and that its continuance in power is the only sure safeguard to national peace and prosperity. And with this platform we appeal to the voters of Oregon for their suffrages and support.

CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS. 685 AND 687 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities, CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

We love our patrons, both large and small,

If it chance to be a luckless wight
No matter, e'en the "chink's" in sight!
If it chance to be a worthy man,
We'll treat him, on the fortnight plan,
But would prefer, if the same to him,
To sell him goods for the ready tin!

Send on your orders, send on your chink,
By sending the money you're saving the ink.
No danger in sending by your children or wife—
We're all of us married and settled for life!
Our love is on the golden plan;
We love the lady as well as the man,
We're partial to none—American or Brittans—
The money's "what's the matter with Hannah."

[illegible]

The Plebiscitum

[illegible] question of [illegible] the p[illegible] upon a question of which the Emperor Napoleon is the initiator as well as proposer Rightly [illegible] ought to afford an opportunity for the free manifestation of the popular wish unembarrassed by any despotic formula But this is not the Imperial intent in asking, "Do the people desire constitutional reforms which assure liberty, placing it under guarantee of the Empire and dynasty" Such we fear is the form of the question which France is to answer early in May It presents a dilemma which that country is compelled to answer in a strait-jacket In short the Imperial question, like the Imperial machinery of election is adapted for the single end of Ratification and does not imply criticism or negation

The French people unawed by their old [illegible] Personal Government might desire Constitutional Reforms without Empire Liberty without Dynasty Napoleon without his son but how are they to make themselves understood by saying yes or no to the most arbitrary of questions? They might wish to have the Senatus Consultum on which the question of the Plebiscitum is based amended but how is this to be done, since neither the people nor their representative can have any real part in shaping the chapter and text upon which they are to speak? The Emperor first and last, makes the question if he does not quite manage the answer Napoleon's premier has accordingly plausible reasons for feeling assured of the result of a Plebiscitum which offers to the people no alternative but Reaction or Revolution In this phrase all the despotic character of a measure which pretends to the most democratic character is summed up A Constitution framed by a despot, and approved by a Senate entirely composed of his creatures is put before the people—unrevised unamended by their representatives—and this too in the shape of the narrowest question that could be devised The new Constitution so-called or rather the old Constitution with the addition of a new Senatus Consultum which is thus offered to France is offered in this most imperial, undemocratic and deceptive manner

Past figures bear seemingly in favor of the Empire in the test of a Plebiscitum the two last great appeals to the people having developed apparently upward of seven millions of votes in favor, to less than seven hundred thousand against the Empire The last elections, however showed a great gain in the strength of the liberal principle in France and whether the Republicans abstain from voting or vote negatively we expect to see a falling off from a vote of 7 828 189 which was given for the Senatus Consultum of 1852, against the 254 145 votes of Republicans, As it is, the Plebiscitum is a snare and a delusion, and on the imperial part a folly judged in the last analysis of events "The Plebiscitum," says Prince Napoleon "is the last stage before a revolution To consult directly the people is a kind of *coup d etat*, and it supposes a dissent between the Emperor and the representatives of the people" To answer *Yes* to the question of the Plebiscitum, according to the same astute man is a delusion and to say *No* is revolution

What Mark Twain Knows about Farming

Mark Twain having been engaged to conduct a new department in the *Galaxy* with the first "copy" for the May number sends the following characteristic letter to the editor

BUFFALO April 2

Mr. F. P. Church Editor of the Galaxy

DEAR SIR My own paper the Buffalo *Express*, does not occupy my entire time, and therefore I accept your offer and from the present time forward will edit and conduct a "Department of Agriculture" in the *Galaxy* magazine I thank you for leaving to me the selection of a department and in choosing that of Agriculture I feel that my judgment has answered your highest expectations.

I have not made this choice at haphazard After careful survey of the ground I saw that the subject of Agriculture had been wholly overlooked by the magazines of the day as a sensational topic and that all that was necessary for us to do was to enter in and seize this rich opportunity, Fortune is secured to us Nothing can prevent such a consummation In this virgin soil I will insert a reaping-hook that shall blossom like the rose upon this soulless desert I will launch a triumphal barge, in this deep mine of affluence will I plant a sturdy tree of prosperity, whose fragrance shall slake the hunger of the naked, and whose sheltering branches shall stretch abroad until they wash the shores of the remotest lands of earth

(I never can touch the subject of agriculture without getting excited But you understand what I mean) Under the head of "Memoranda," I shall take hold of this neglected topic and by means of a series of farming and [illegible] articles of blood curdling interest will proceed to lift the subject of agriculture into the first rank of literary respectability

Herewith please find my manuscript for your May number MARK TWAIN

P S—I have no practical knowledge of Agriculture, but that need not interfere You may have noticed that the less I know about a subject the more confidence I have and the more new light I throw on it

The Pope on the Opposition Bishops

The Paris *Univers* gives the following remarkable address made by the Pope to the Vicars Apostolic on the 24th ult They were assembled in the Salle Regia in the Vatican at Rome

It is joyful for me to see you and I think it is joyful to you also to be near me Some good women have given me these articles of tribute You ought to pray for these intelligent laborers who have toiled for the beauty of the house *I dem le re d* [illegible] They wish that—but I cannot [illegible] You will find however in each [illegible] a paper which explains their very pious intentions The ask principally the [illegible] of the donation of the Sacred Heart which I much approve Read and circulate the paper containing these vows and prayers

Yes, pray for great difficulties surround us A thought just occurs to me which I wish to express to you We are at this moment where Pilate judged Christ The Jews were tumultuous Pilate wished to send them away and to deliver the innocent But if thou let this man go thou art not Cæsar's friend The Jews Pharisees and the multitude knew how to use that cry Pilate did not dare to be just (Here the Pope made a gesture of disdain and his voice became animated There are some who have the same fears of the world they fear the revolution They know the truth very well they do not hate it but *non es amicus Cæsaris* They sacrifice everything the rights of the Holy See and attachment to the Vicar of Christ What faults they commit They see the applause of men We my children seek the approbation of God

The claims of truth and justice must be sustained The task of the Bishops is to defend the truth with the Vicar of Christ and not be afraid My children do not abandon me [Cries of no no] Attach yourselves to me be with me unite yourselves to the Vicar of Christ [illegible] We shall revenge [illegible] others by prayer It is pray for them May God enlighten [illegible] instruct them [illegible] May the Holy Spirit give them [illegible] more [illegible] holy

PER THE WESTERN [illegible] telegraphic dispatches inform us that Governor Senter of Tennessee is in Washington having been summoned there by the Reconstruction Committee to testify [illegible] the lawless condition of that State [illegible] speaking of the Committee [illegible] affairs there says

Governor Senter is reaping a harvest of [illegible] spirit from [illegible] which he did so much to [illegible] power might follow [illegible] hold of his [illegible] gatives Instead [illegible] peaceful thrifty State [illegible] or even [illegible] is through his private Secretary [illegible] at the feet of the [illegible] to subdue the rebellious storm of his own creation We know not what [illegible] his humiliation Had this mistake in surrendering the Republican party of his State not been pointed out to him had he not been importuned and warned beforehand, it would not have appeared so malicious nor his line of conduct so full of turpitude As the case now stands the only ground of sympathy with Tennessee is the cause of the suffering loyalists Let the Senterites learn of the teachers they have chosen let them smart under the rod they placed in the despotic hands

The new election law for New York puts the regular election in November preserves the arrangement of [illegible] for inspectors of election preserves the present order of canvassing and provides for keeping the polls open from [illegible] o'clock in the morning until 5 in the afternoon The act provides for the old system of choosing inspectors of election so that two names only shall be voted for on one ticket the two highest to be declared elected and the next highest to be appointed by the Mayor There will be no canvassers in election districts—that work is to be done by the Inspectors The registry law is preserved with the requirement that the list be revised on the Thursday instead of the Saturday preceding the election The challengers of each party at the polls are to be protected in their duties by the police Two clerks are to be appointed for each poll by the inspectors of election one of whom is to be selected by the inspector in the minority The canvassing is to take place immediately after the election and before adjournment and special safeguards are established to secure an honest count A bureau of elections is to be established by the city, and all returns are to be filed at that department The city is to be divided into election districts, each to contain as nearly as possible 400 voters Heavy penalties are imposed upon any violation of the provisions of this law

Not long ago a Western youth who had been wheedled into a marriage which his subsequent judgment could not approve commenced a suit for divorce When the wife heard it she was naturally indignant and demanded of the youthful Benedict to assign a reasonable cause for his proceedings

"You are older than I am" said he

"You knew that before we were married" was the indignant answer

"You paint"

"Everybody does that, sir"

"You wear false teeth"

"Certainly but it is not a crime"

"There is more make-up about you than reality"

"What then?"

"Your hair chignon and waterfall weigh more than you do"

"Well"

"Well it's a dead woman"

"Well"

"Well I wont live with a dead woman or any part of her"

The youth went away

At a recent sale of unclaimed baggage at an express office in Chicago a boy purchased a rather dilapidated package that was offered for $1 35, and upon investigating its contents found them to consist of a bundle of song books and a Louisiana lottery ticket which he sold to an old negro standing near Upon investigation the lottery ticket proved the holder to be entitled to $10 000, more or less

The Ottawa *News* predicts that a Fenian invasion of Canada would be a short and bloody affair the present temper of the Canadian people being such that no mercy could be expected

The girls of Troy New York sleep with revolvers under their pillows It is unsafe to burgle anywhere in that vicinity

FINANCE AND COMMERCE

PORTLAND May 9, 1870

Gold is quoted to day at 114⅞

Legal tenders steady at 87½a

There has been some movement in trade circles to-day though there has been nothing like general animation We note some sales of hardware for Oregon City Eugene and Lewiston Grocery dealers have pretty generally been busy through the day in putting up goods for the interior Outside of these two lines the day has been rather quiet Dry goods are particularly dull

We have reports from nearly all parts of the country of excellent crop prospects The Walla Walla *Union* of [illegible] says The wheat both fall and spring looks remarkably promising This is encouraging for the farmer as there is a partial failure of the wheat crop in California The fall grain will make itself without any more rain * * * There will be quite a large quantity of volunteer wheat cut the coming harvest Some fields are well set and will produce a fair yield but there is much of it quite thin and full of weeds

The *Statesman* notices the visit of Mr Klinkworth to the Walla Walla and adjacent valleys It says The agent of the German colony returned from his trip to [illegible] last [illegible] expressed himself well pleased with the Walla Walla valley For agricultural purposes he [illegible] decided the finest section of [illegible] that his report will favor the settlement of the colony at some point east of the mountains He is now on his way to Puget Sound

The news from the Willow creek mines is not very encouraging It is said that the snow has nearly disappeared and water is expected to become scarce in a few weeks

The following paragraph is from the Walla Walla *Union* of the [illegible] The advance trains which left here this spring for Cedar creek made the trip in 26 days The snow in the mountains is fast disappearing and the late reports fully sustain those previously published [illegible]

Dr Gibbon's Dispensary,

623 KEARNEY STREET NEAR COMMERCIAL

San Francisco Established in 1854 for the treatment of Sexual and Seminal Diseases, such as Gonorrhea Gleet, Stricture, Syphilis in all its forms, Seminal Weakness Impotency [illegible] Skin Diseases (of years standing) and Ulcerated Legs successfully treated

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering on a miserable existence from the effects of secret indulgences or from virus absorbed into the system. Look at their pallid emaciated and fading [illegible] and the [illegible] of marriage or the [illegible] of life. In this horrid situation thousands suffer until death [illegible] the scene. Let parents guardians [illegible] those who are suffering with any of these horrible [illegible] send them immediately to Doctor Gibbon a physician who has made private diseases his specialty [illegible] years, and who is certain to cure [illegible] without mercury or any injurious drugs. It is important to those who are afflicted, also to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of these charlatans.

Seminal Weakness

Seminal Weakness, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures viz Sallow countenance dark spots under the eyes pain in the head ringing in the ears noise like the rustling of leaves and rattling of chariots, uneasiness about the loins weakness of the limbs confused vision, blunted intellect, loss of confidence diffidence in approaching strangers a dislike to form new acquaintances, a disposition to shun society loss of memory hectic flushes, pimples and various eruptions about the face, furred tongue fetid breath coughs, consumption night sweats monomania and frequently insanity If relief be not obtained, should apply immediately either in person or by letter and have a cure effected by his new and scientific mode of treating this disease which never fails of affecting a quick and radical cure. Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

MARRIED MEN,

Or those who contemplate marriage who are suffering under any of these fearful maladies should not forget the sacred responsibility resting upon them nor delay obtain immediate relief

DOCTOR GIBBON is responsible, and will give to each patient a written instrument binding himself to effect a radical and permanent cure or no charge

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr Gibbon stating case symptoms length of time the disease has continued, and have medicines promptly forwarded free from damage and curiosity to any part of the country with full and plain directions for use for Ten Dollars, sent in registered letter or through Wells Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn to certificates dupe the unwary Some of the self styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco and other places are tradesmen and became too lazy to work at their trades Some are tinsmiths shoemakers newspaper carriers, intelligence office keepers etc Look over the San Francisco Directory and you will not find their Medical Institutes in it but you will find their true occupations in it Look at the Directory for 1862 and 1863 The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets [illegible] as advertising physicians in eight cases out of ten are bogus [illegible] safety in trusting any of them until you know who and what they are Dr Gibbon deems it but right people by exhibiting bogus certificates, pretended patients' letters etc Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.
